WORK EXPERIENCE

Independent Security Researcher HackerOne

01/2021 - Present

Achievements/Tasks

- Conducted penetration tests on 100 different organizations, identifying and reporting 200 security vulnerabilities.
- Used a variety of tools and methods to detect vulnerabilities, including network scanning, port scanning, and vulnerability scanning.
- Reported security flaws in a concise and thorough manner, including a description of the flaw, its potential impact, and how to remediate it.
- Worked with the security team of each organization to help them understand the vulnerabilities and potential impacts, and to develop remediation plans.
- Kept up with the latest security threats and trends by reading security blogs, attending security conferences, and taking security courses.

Independent Security Researcher Bugcrowd / Ye

02/2021 - Present

Achievements/Tasks

- Conducting security assessments and penetration testing on various organizations to identify vulnerabilities.
- Using a variety of tools and techniques to identify security issues and assess the risk level.
- Reporting vulnerabilities and providing clear and detailed descriptions of the vulnerabilities and their potential impact.
- Communicating with the organization's security team to help them understand the vulnerabilities and the potential impact.
- Staying up-to-date with the latest security threats and trends to continuously improve your skills and knowledge.

EDUCATION

B.Tech in Computer Science Engineering Manipal University Jaipur

07/2020 - Present

8.38

Minor

- Research on Network Anomaly Detection Using Efficient Machine Learning Techniques

SKILLS

Vulnerability Assessment & Penetration Testing (VAPT)

Penetration Testing

Web Application Security

Network Security

Information Security

Bash Scripting

API Security Testing

C/C++

Java

Python

SQL

Linux/MAC OS/ Windows

Bug Hunting

FOUND BUGS IN

Indeed, Lenskart, Airtel

National Critical Information Infrastructure Protection Center (NCIIPC)

Epic Games, Zomato, Exness, Shein, Under Armour, Ipsy, Grailed, Rippling

PROJECTS

Projects Azure Sentinel RDP Defense (04/2023 - 04/2023)

- Extracted geolocation data from Windows Event Viewer using PowerShell.
- Configured Azure Log Analytics to ingest custom logs with geolocation data.
- Configured custom fields in Log Analytics for mapping geo data in Azure Sentinel.
- Configured Azure Sentinel workbook to display global attack data on world map.

CERTIFICATES

Certified AppSec Practitioner (CAP)

Practical Malware Analysis and Triage (TCM Security)

Practical Ethical Hacking (TCM Security)

Ethical Hacking and Cybersecurity (Bittentech)

Ethical Hacking/Penetration Testing and Bug Bounty Hunting(v1 & v2) (Udemy)

Google Cybersecurity Professional

CC (ISC2)
